Dear Scott

**Re: Ecoroq Filters**

Just a quick note to give you some feedback on the filters that we have been using in our stores for about two years now. We first tried the filters in our Burleigh Waters store for 12 months to see if they made a difference to our fridges and freezers and their contents. Almost instantly the staff noticed a reduction in the moisture levels and the freshness of the produce in the fridge. After the 12 months, we also did an analysis of our electricity costs and we noticed a reduction in our power bill (ignoring power prices increases).

So after this 12 month trial and given both of these positive outcomes, I did not hesitate to put the filters in our three other stores, as our produce stays fresher, our electricity usage decreases and thus this hopefully means there is less wear and tear on our refrigeration equipment.

Regards
