#05-05 Halycon Building  
Singapore 577183

Date: 21st May 2008

Dear Marvin

I just wanted to drop you a quick letter to thank you and your company Humico Pte Ltd. for introducing me to your product. The filters have allowed us to keep our perishable goods for twice their normal shelf life and for some items even longer. The normal fridge odours have been reduced, keeping our food safer as there are now fewer bacteria. The filter has also allowed us to reduce the amount of power that our fridges use by some how keeping them colder? Whatever it is...it works!

The best part is that there are no moving parts to break down not to mention the cost.

Please feel free to ask any of your potential customers to call me for a personal reference for this product as it will have my wholehearted support.

Regards
